INTRODUCTION

Sheikh Muhammad Anwar (Late)
(Founder)

Manufacturing:

FACT-N-FAIR INDUSTRIES: has a rich infrastructure of designing and Manufacturing finished and semi finished instruments. Human recourses are devolved according to the specific needs of the technology we have combined decades of hand skills with the future technology. FACT-N-FAIR INDUSTRIES: also purpose product development services from designing to prototype and Manufacturing of custom built products. FACT-N-FAIR INDUSTRIES: Manufactured the instruments in different stainless steel like French, Japanese, German and Pakistan Stainless Steel according to customer requirements.

COMPANY:

FACT-N-FAIR INDUSTRIES: is the PAKISTAN'S Medical Instruments Manufacturer. We have been established city of medical instruments "SIALKOT" for over 25 year through 3rd Generation INTERNATIONAL reputation for quality, excellence Services, Competitive Prices and in time delivery facility.

PRODUCTS:

FACT-N-FAIR INDUSTRIES: Specialize in Manufacturing SURGICAL, DENTAL, ORTHOPEDIC, HOLLOW WARE, VETERINARY and also all kind of BEAUTY INSTRUMENTS.

QUALITY POLICY:

Our QA (Quality Assurance) Department is check the quality of instruments during the various stages of Manufacturing and finally before it is on packing, to ensure that every tool we produce must be high quality under the knowledge of generation experience. As an infinite range of all sorts of instruments, we tried to put the most common range in our website. However if some articles are missing or if our beloved customer required any specific sizing or finish (POLISH, STAIN OR SAND FINISH)

CERTIFICATES:

FACT-N-FAIR INDUSTRIES: Also Achieving the CE Marking Certificate, cGMP, ISO 9001:2000:13485 Certificates, Free Sales Certificates. At FACT-N-FAIR INDUSTRIES R&D is the most important part. We are constant contact with the metal surgical, chemical and mechanical engineers under the advice of very highly qualified and experienced Scientifics and professional.

How to Use Cuticle Nippers

Cuticle Nippers are a specialized tool designed to trim hang nails and dry, dead skin built up around the nail bed. Cuticle nippers are used in preparation for any nail treatment.

- ★ **Cuticle Nail Nippers, Jap Joints**
- ★ **Cuticle Nail Nippers, Box Joints**
- ★ **Nail Corner, Ingrown & Toe Nail Nippers**

All Nippers are completely hot drop forged from stainless steel in two categories;
1) Lap joint 2) Box joint
Each tool is machined and milled for perfection during assembly, which is then aligned to prevent slipping of the cutting tips. the angle of sharpness is designed to make low force cutting functions. Available in following finishes:
Mirror, Satin, Sand-blasted, Gold-plated completely or partially, partially color coated.

Step 1.

Soak Your Cuticles

Prepare your cuticles by soaking your fingers in warm water for 5 minutes to soften your cuticles.

Step 2.

Push Back Cuticles

Now roll back and lift your cuticles from nail plate using a cuticle knife or cuticle pusher.

Step 3.

Clip Excess Dry Skin

Remove the excess cuticle and dry skin surrounding the nail by place the nippers over the excess cuticle. Firmly closing the blade of the nipper, then release and pull away. Make sure not to pull away before releasing because you can rip your cuticle if it is not fully clipped.

Step 4.

Buff Away Build-up & Imperfections

Lastly, remove any build up that may be left over and smooth imperfections with a nail buffing block using the rougher side.

CUTICLE & NAIL SCISSORS

- ★ *Cuticle / Nail Scissors*
- ★ *Safety & Baby Fine Scissors*
- ★ *Fancy & Embroidery Scissors*

All scissors are crafted from best quality stainless steel through hot drop forging method, which gives the instrument a sturdy formation and nice profile. The assembly consists of machine-made screw for smooth and frictionless operation. The surface finish gets the final out look after multiple grinding, polishing and cleaning processes.

Available in following finishes:

Mirror, Satin, Sand-blasted, Gold-plated completely or partially, Partially color coated

How to use our Tweezers

1. Determine Your Eyebrows Starting Point

Hold a straight edge, such as a pair of tweezers or a eyebrow pencil, vertically along the side of the bottom of your nose (along the nostril). Make sure that the line touches the outermost edge your nose and the inside of your eye. The point where line and your eyebrow meets should be the starting pint of your eyebrow. Mark this spot with a eyebrow pencil and repeat for the other eye, making sure space above the bridge of your nose is centered between both starting points. Remove the stray hairs that fall in between.

2. Determine Your Eyebrows Arch Point

Looking straight ahead at the mirror, hold the straight edge at an angle so that it lines up with the outermost edge of your nose and the outermost edge of your iris. The spot that the line intersects your eyebrow's top border is where the peak of your arch should begin. Mark the point with your eye pencil, then remove a row of hairs along the bottom, to enhance your arch. After the peak, shape the tail. Repeat with the other eye.

3. Determine Your Eyebrows End Point

Again, holding the line at an angle from the outermost edge of your nose to the outer most edge of your eye. This is where the eyebrow should end, mark this spot with your pencil, remove the strays beyond this line and repeat with the other eye.

4. Determine Your Brow Thickness

Use your pencil to draw a line just below the fullest part of your eyebrow. I recommend following the natural curvature of your eyebrows. You should end up with a 1/4" - 1/2" brow at it's thickest point. Pluck all the strays below the line and all strays above your eyebrow.

Waxing Eyebrows

The best type of wax for eyebrows is a cream wax heated up in a wax pot. These waxes are the most gentle and are great for the delicate, sensitive eye areas. Also, I recommend purchasing pre-cut strips for eyebrows.

Before you start, you will need you need to decide on the shape of your brows and pull or pin-back hair (so you can see your eyebrows clearly). Pre-heat your wax and make sure you have access to a large mirror (not a hand-held). Your should wax you eyebrows in 4 stages as highlighted to the right.

PROFESSIONAL HAIR STYLING SCISSORS

- QUALITY
- PRECISION
- ACCURACY
- DURABILITY

Main Feature of our Handcrafted Razor Scissors

- ✦ Professional Barber Razor Edge Shears
- ✦ Professional Barber Shears & Scissors
- ✦ Thinning Scissors
- ✦ Hair Shapers & Razor Knives

*Cutting Styles & Techniques, Cutting Position Depending On Handle Type
Point Cut, Blunt Cut, Slide Cut, Slice Cut Chipping, Fan Cut Thinning Styles
& Techniques Thinning, Tapering, Blending, Texturizing.*

Material:

Japan Stainless Steel Aisi 1420b, Aisi 440a, French Cobalt Steel Sharpping.

Casting:

*Liquid Metal Is Poured Into A Mold. If Properly Hardened, It Can Be Durable, But
Will Not Hold The Edge As Long As A Forged Shear*

Drop Forging:

A Weighted Mold Is Dropped With Great Pressure On Ta A Hot Bar Of Steel.

The Alloy Is Pound Into A Desired Shaped Which Makes The Metal More Dense.

The Blade Holds As Edge Longer And Is More Malleable.

Compression Forging:

The Metal Is Crushes Into A Desired Shape, Yielding A Highly Dense Metal.

Compression Forging Makes It Possible To Have A Lighter Shear With Tremendous Strength.

Other:

Titanium Coating, Super Mirror Finish, Triple Annealed, Vacuum & Sub-zero Tempering
